

# BULK PLANTS

Propane / Anhydrous / Refined fuel

- » Westmor manufacturing facilities allow for quick lead times.
- » Pressure vessels are x-rayed to ensure welds are strong and reliable, avoiding premature failures.
- » Each tank is engineered in compliance with the latest state and federal regulations.
- » Trained and certified installation crews set and pipe bulk plants providing a turnkey facility.

PROPANE TANKS

30,000 GALLON STORAGE TANK

LP BULK PLANT

ANHYDROUS TANKS

18,000 GALLON

30,000 GALLON

REFINED FUEL TANKS

REFINED FUEL BULK PLANT

REFINED FUEL BULK PLANT

## CAPABILITIES

### SIZES

- » In-house manufacturing allows for custom sizes
- » Standard sizes from 1,500 to 88,750 gallons

### REFURBISHED OPTIONS

- » Inventory of refurbished pressure vessels restored to like-new condition available

### TANK STRENGTH

- » Welds are x-rayed to guarantee strength and reliability

### INSTALLATION

- » Piping is welded instead of threaded to reduce potential leaks

IN-HOUSE TANK ROLLING

**MAINTENANCE AND REPAIR SERVICE**

**CERTIFIED CREWS**

- » Complete installation including: tank setting and piping for a turnkey site
- » Certified two person crews minimize downtime
- » Qualified installation teams ensure safe and efficient delivery
- » Maintenance and repair services offered to maintain plant effectiveness

**TOP BRANDS**

- » Marshall Excelsior
- » Blackmer
- » OPW
- » Emco Wheaton
- » Liquid Controls

**TANK SETTING**

**ON-DEMAND PARTS**

- » Large stocked inventory for quick access
- » Same day shipping available for limited downtime
